COATINGS DIVISION AWARDED CONTRACT

The Company is pleased to announce that its subsidiary, Hydrotech Waterproofing Solutions ('HWS') has been awarded the contract to supply and install the protective coating for the sea water and fresh water storage tanks at the Polar Adventure & Thrill Mountain attractions at Ocean Park in Hong Kong. The contract has been awarded to HWS by Kaden Construction Limited, part of the Wai Kee Group.

This is the second project that has been awarded to HWS at Ocean Park following the successful application of its Polyurea system to the Entry Plaza, Aqua City and Grand Aquarium project presently being constructed by Leighton Asia. We are also in discussions with the client to undertake further coating works to the aquariums and back of house facilities.

The award of this project to HWS reinforces our marketing position of supplying high performance solutions for waterproofing issues. We are actively tendering further works and hope to be in a position to confirm additional projects in the coming months.
